**MUNICIPAL ORDINANCE NO. 157
s. 2023**

AN ORDINANCE INSTITUTIONALIZING THE USE OF THE INCIDENT COMMAND SYSTEM (ICS) AS AN ON-SCENE DISASTER RESPONSE AND MANAGEMENT MECHANISM IN THE MUNICIPALITY OF SAN ISIDRO, LEYTE.

Sponsored by:

Chairman, Hon. Hospicio B. Apacible

Co-Sponsored by: Atty. Rem Beryl Y. Veloso, Hon. Carmichael L. Villarino, Hon. Armin Joseph D. Ebales, Hon. Hon. Ailene L. Basilan, and Hon. Jerold T. Lumapak

WHEREAS, climate change and disaster risks are inevitable threats and a challenge to the development and stability of the country;

WHEREAS, R.A. 10121 also known as Philippine Disaster Risk Reduction and Management Act of 2010 mandates LGUs to be at the forefront in responding to natural disasters in local communities;

WHEREAS, the region 08 as it faces the Pacific Ocean is very vulnerable to various hazards like typhoons, flooding, storm-surge, and landslides, where the impact of disaster is quite unpredictable;

WHEREAS, the National Disaster Risk Reduction and Management Council (NDRRMC) issued Memorandum Circular No. 4, S-2012, an implementing guideline on the use of Incident Command System (ICS) as an On-Scene Disaster Response and Management Mechanism under the Philippine Disaster Risk Reduction and Management System (PDDRMS);

WHEREAS, the Department of the Interior and Local Government (DILG) issued Memorandum Circular No. 2015-76 to all Provincial Governors, City Mayors, Municipal Mayors, Punong Barangays, Regional Governors of ARMM, DILG-ARMM Regional Secretary, DILG Regional Directors and all others concerned to establish the Incident Command System (ICS) as an on-scene response management mechanism which is to be activated in response to disasters or emergencies;

WHEREAS, the Incident Command System (ICS) is a management system designed to enable effective and efficient domestic incident management by integrating a combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure;

WHEREAS, it is a fundamental form of management with the purpose of enabling incident managers to identify the key concerns associated with the incident-often under urgent conditions-without sacrificing attention to any component of the command system;

WHEREAS, institutionalizing the Incident Command System (ICS) means the local officials, incident managers and emergency organizations at all jurisdictional level shall adopt the Incident Command System (ICS) that will appropriately delegate to the Unified Commanders the authority to manage the incident.

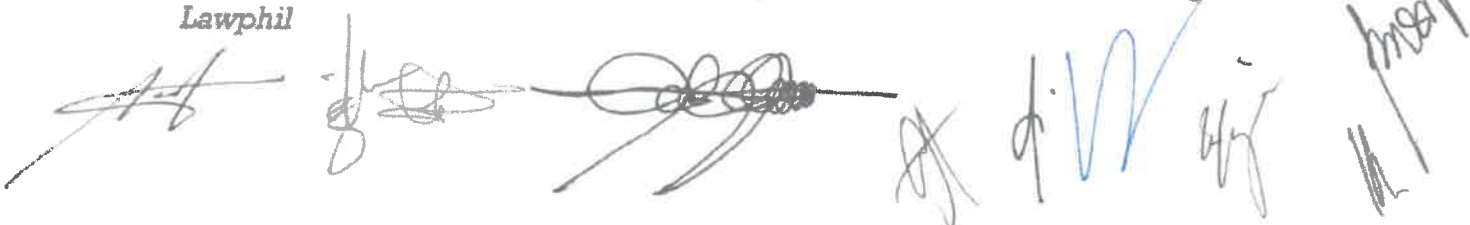

NOW, THEREFORE, be it enacted by the Sangguniang Bayan San Isidro, Leyte in its regular session assembled:

SECTION 1. – SHORT TITLE – This Ordinance shall be known as the "Incident Command System (ICS) of San Isidro 2023"

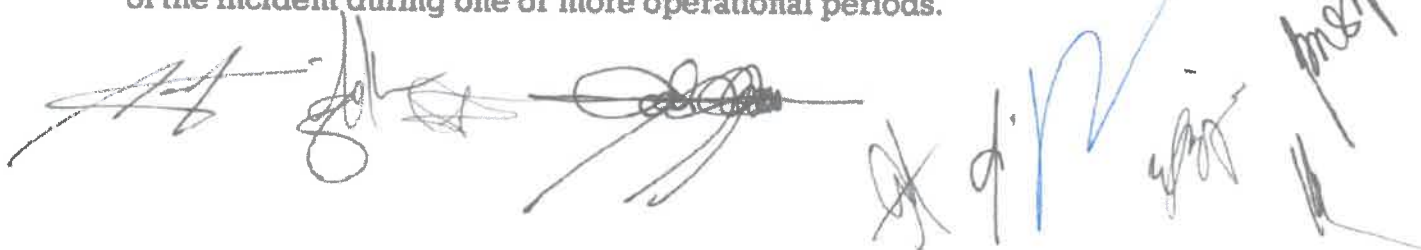

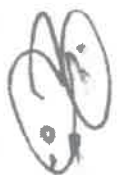

SECTION 2. – DEFINITION OF TERMS – For purposes of this Ordinance, the following shall refer to:

- a. Contingency Planning – a management process that analyze specific potential events or emerging situations that might threaten society of or the environment and establishes arrangements in advance to enable timely, effective and appropriate responses to such events and situations.
- b. Command Staff – the staff who report directly to the Incident Commander, including the Public Information Officer, Safety Officer, Liaison Officer and other positions as required.
- c. Community - consists of people, property, services, livelihoods and environment; a legally constituted administrative local government unit of a country, e.g. municipality or district.
- d. Coordination - bringing together of organizations and elements to ensure effective counter disaster response. It is primarily concerned with the systematic acquisition and application of resources (organization, manpower and equipment) in accordance with the requirements imposed by the threat of impact of disaster.
- e. Disaster – a serious disruption of the functioning of a community or a society involving a widespread human, material, economic or environmental losses and impacts, which exceeds the ability of the affected community or society to cope using its own resources. Disasters are often described as a result of the combination of: the exposure to a hazard; the conditions of vulnerability that are present; and insufficient capacity or measurer to reduce or cope with the potential negative consequences, disaster impacts may include loss of life, injury, disease and other negative effects on human, physical, mental and social well-being, together with damage to property, destruction of assets, loss of services, Social and economic disruption and environmental degradation.

Lawphil

- f. **Disaster Response** - the provision of emergency services and public assistance during or immediately after a disaster in order to save lives, reduce health impacts, ensure public safety and meet the basic subsistence needs of the people affected. Disaster response is predominantly focused on immediate and short-term needs and is sometimes called "disaster relief".
- g. **Emergency** - unforeseen or sudden occurrence, especially danger, demanding immediate action; an actual threat to an individual's life or to public health and safety which needs immediate response.
- h. **Emergency Management** - the organization and management of resources and responsibilities for addressing all aspects of emergencies, in particular, preparedness, response and initial recovery steps; a management process that is applied to deal with the actual or implied effects of hazards.
- i. **Emergency Operations Center** - the physical location at which the coordination of information and resources to support incident management (on-scene operations) activities normal.
- j. **General Staff** - represents and is responsible for the functional aspects of the IC structure. Typically, it consists of the Operations, Planning, Logistics, and Finance/Administration sections.
- k. **Hazard** - a dangerous phenomenon, substance, human activity or condition that may cause loss of life, injury or other health impacts, property damage, loss of livelihood or services, social and economic disruption, or environmental damage; any potential threat to public safety and/or public health; any phenomenon which has the potential to cause disruption or damage to people, their property, their services or their environment, i.e., their communities. The four classes of hazards are natural, technological, biological and societal hazards.
- l. **Incident** - an occurrence or event, natural or human-induced, that requires an emergency response to protect life or property. Incidents can, for example, include major disasters, emergencies, terrorist attacks, terrorist threats, civil unrest, floods, hazardous materials spills, nuclear accidents, aircraft accidents, earthquakes, tropical storms, tsunamis, war-related disasters, public health and medical emergencies, and other occurrences requiring an emergency response.
- m. **Incident Action Plan (IAP)** - an oral or written plan containing general objectives reflecting the overall strategy for managing an incident. It may include the identification of operational resources and assignments. It may also include attachments that provide direction and important information for management of the incident during one or more operational periods.

- n. Incident Command Post (ICP) – is the location from which the Incident Commander oversees all incident operations. There is only one ICP for each incident or event. Every incident or event must have some form of an Incident Command Post. The ICP may be located in a vehicle, trailer, tent, or within a building. The ICP will be positioned outside of the present and potential hazard zone, but close enough to the incident to maintain command.
- o. Incident Command System (ICS)- is an organization structure capable of responding to all levels of emergencies from simple to complex. It also provides the flexibility to respond to an incident as it escalates in severity. It is a standardized approach, on-scene all hazard incident management concept that enables a coordinated response among various jurisdiction and agencies.
- p. Incident Commander (IC) - the individual responsible for all incident activities, including the development of strategies and tactics and the ordering and the release of resources. The IC has overall authority and responsibility for conducting incident operations and is responsible for the management of all incident operations at the incident site.
- q. Preparedness - measures taken to strengthen the capacity of the emergency services to respond in an emergency.
- r. Tactics - refers to those activities, resources and maneuvers that are directly applied to achieve goals; deploying and directing resources on an incident to accomplish the objectives designated by the strategy.
- s. Unified Command (UC) - an Incident Command System management option that can be used when more than one agency has incident jurisdiction or when incidents cross political boundaries/ jurisdictions. Agencies work together through the designated members of the UC, often the senior person from agencies and/or disciplines participating in the UC, to establish a common set of objectives and strategies and a single Incident Action Plan.

SECTION 2. – PURPOSE. The purpose of the ICS is to:

- Provide a common language for all emergency responders.
- Provide an organizational structure that can grow rapidly in response to the requirements of the emergency.
- Assign employees with reasonable expertise and training to critical functions without loss of precious time.
- Activate only those positions needed to manage a particular incident or level of incident.
- Promote proper span of control and unity of command.
- Provide a system for information coordination to internal/external audiences.

- Provide the Emergency Operations Center director with the control necessary to support all operations and all agencies responding to the incident.

THE OPERATIONAL PLANNING CYCLE – The Incident Command System will follow the standard operational planning cycle from incident/ event, notification, initial response, and assessment to planning meeting to tactics meeting.

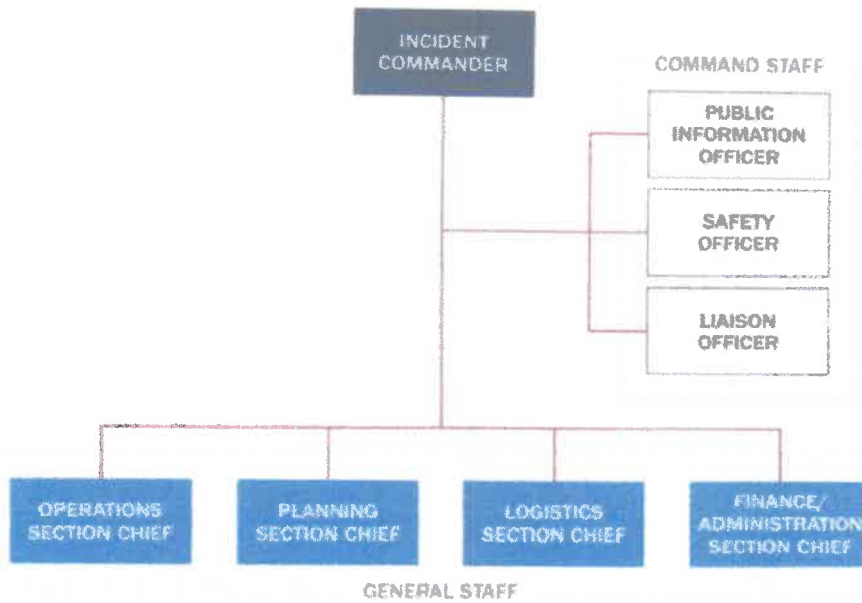

INCIDENT COMMAND POST – Incident Command Post will be located with the incident base where primary command functions are performed or performed at other incident facilities.

THE MUNICIPAL INCIDENT COMMAND SYSTEM (MICS) STRUCTURE is shown below and shall have the following responsibilities:

COMMAND

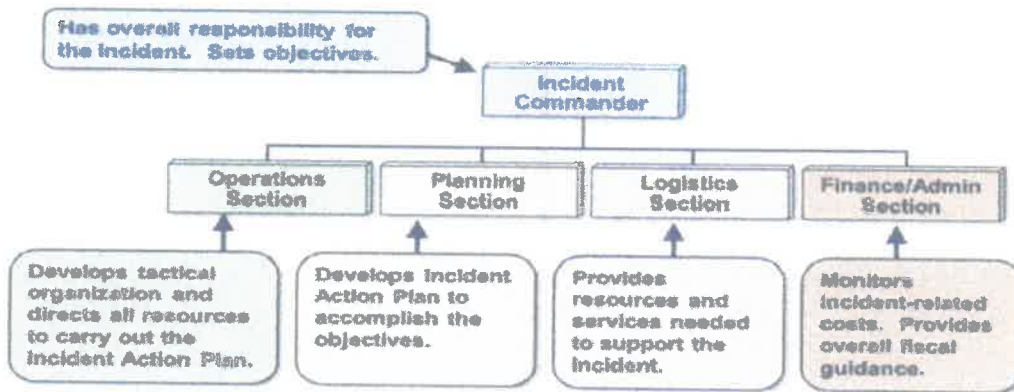

- Incident Commander: - Municipal Mayor
- Deputy Incident: - Commander: MDRRM Officer
