1.1 The Barangay Anti-Dengue Task Force shall identify and designate a Point Person for every purok in the barangay.

1.2 The Purok Point Person shall identify and designate members of his/her Purok Dengue Brigade.

1.3 The Dengue Brigades shall conduct the ocular inspection for mosquito breeding sites in their respective Purok (as provided in Rule III, Section 4 of this ordinances).

1.4 The Dengue Brigades shall prepare a report and a spot map showing the location and type of possible mosquito breeding sited (old tires, water containers, dumpsites/junkyards/recycling bottles, plastic / metal containers etc.)

1.5 The report and spot map shall be submitted to the Purok Point Person who shall in turn submit these to the Public Health Midwife (PHM).

1.6 The PHM shall identify the high-risk purok by ranking the puroks in the Barangay according to the number of mosquito breeding's sites.

1.7 The PHM shall prepare a spot map of the entire Barangay indicating the location high-risk puroks.

1.8 The PHM shall prepare a list of the puroks in a Barangay ranked from the highest to the lowest or no risk.

1.9 The PHM shall submit the Barangay spot map and the list of the ranked puroks to the Barangay Anti-Dengue Task Force for endorsement to the Municipal Health Office.

2. Identification of high-risk barangays.

2.1 The Municipal Health Officer (MHO) shall designate the Public Health Nurse as the Dengue and Vector Control Surveillance Officer (DVCSO).

2.2 The DVCSO shall consolidate the submitted list of ranked puroks per Barangay.

2.3 The DVCSO shall identify the high-risk puroks in that Barangay.

2.4 The DVCSO shall prepare a spot map of the entire municipality indicating the high-risk barangays.

I HEREBY CERTIFY that the foregoing minutes was adopted with amendments:

2.5 The DVCSO shall submit the list of high-risk Barangay to the MHO for endorsement to the Municipal Anti-Dengue Campaign Committee.

3. Conduct of baseline entomological survey in high-risk barangays.

3.1 The MHO and the DVCSO shall meet and plan with the Barangay Anti-Dengue Task Forces of the identified high-risk barangays.

3.2 The Purok Dengue Brigades of the high-risk Barangay shall be trained to conduct the entomological survey as provided in Rule III, section 5 of this ordinance.

3.3 The Purok Dengue Brigade shall conduct the entomological survey under the supervision of the DVCSO and the Municipal Sanitary Inspector (MSI).

3.4 The Purok Dengue Brigade shall submit the data and the collected specimens (mosquito larvae) to the Municipal Health Office through the MSI for microscopic identification of the *Aedis aegypti* larvae.

3.5 The MSI shall submit the laboratory results to the DVCSO for computation of indices.

3.6 The DVCSO shall record the baseline data on the different larval indices per household/establishment per purok per Barangay.

3.7 The DVCSO shall submit the baseline larval indices report to the MHO.

3.8 The MHO shall analyze and interpret the baseline data and prepare a report with recommendations for submission to the Municipal Anti-Dengue Campaign Committee and the Barangay Anti-Dengue Task Force concern.

4. Dengue Prevention and Control Clean-Up Campaign.

4.1 Household

4.1.1. The Purok Dengue Brigades shall conduct education and information campaigns enjoining the households/establishment in their catchment area to:

4.1.1.1 practice the 4'oclock habit every day.

4.1.1.2 proper storage of empty/unused containers (tin cans, plastic containers, bottle crowns/covers, old tires etc.)

4.1.1.3 practice garbage segregation, recycling and proper disposal of garbage.

4.2 Community

4.2.1 The Purok Dengue Brigades shall lead the community in a weekly general clean-up drive.

4.2.1.1 The Purok Dengue Brigades and the community volunteers shall conduct a house to house (including all establishments in the catchment area visit to locate and eliminate mosquito breeding sites.

5. Establish sentinel sites for vector surveillance.

5.1 The MHO and DVCSO shall assist the Barangay Anti-Dengue Task Forces of high-risk barangays in the planning and implementation of vector surveillance.

5.2 The MHO and DVCSO shall assist the Barangay Anti-Dengue Task Forces of high-risk barangays in identifying and designating households/establishments as sentinel sites for vector surveillance.

5.3 The DVCSO and MSI shall orient/train the Barangay Anti-Dengue Task Forces and Dengue Brigades of high-risk barangays in the preparation, installation and maintenance of ovitraps as provided in Rule III, Section 6 of this ordinance.

5.4 The Purok Point Person shall get the approval and cooperation of identified households/establishments as sentinel sites.

5.5 The Purok Point Persons shall conduct orientations on vector surveillance, its importance and the roles and responsibilities in the maintenance of the ovitraps for cooperating sentinel site household members and employees of establishments.

5.6 The Dengue Brigades under the leadership of the Purok Point Persons shall divide and distribute the sentinel sites for installation of ovitraps.

5.7 The Dengue Brigades under the supervision of the Purok Point Person shall install the ovitraps in their assigned sentinel sites.

6. Vector surveillance

6.1 The Dengue Brigades shall identify the day of the week for collection of specimen from sentinel sites to avoid overloading of specimen at the Municipal Health Office.

6.2 The Dengue Brigade members shall collect specimen samples from their respective assigned sentinel sites.

6.3 The Dengue Brigade members shall submit the properly labeled specimen samples to the MSI of the Municipal Health Office.

6.4 The MSI shall submit the results of the laboratory examination to the DVCSO for computation of indices, recording, consultation and reporting to the MHO.

6.5 The MHO shall analyze and interpret the data and make a report with recommendations to the Barangay Anti-Dengue Task Force concerned and the Municipal anti-Dengue Committee for their respective actions.

6.6 The MHO shall furnish copies of the report to the District Health Office (DHO), the Provincial Health Office (PHO) and the Provincial Health Team Office (PHTO) of the Center for Health Development – Central Visayas.

SECTION 4: Procedures in the conduct of Ocular Inspection.

1. The Barangay Anti-Dengue Task Force (BATF) shall identify point person of each purok called the purok point person (PPP)

2. The PPP shall be responsible to identify a team to conduct the ocular inspection.

3. Ocular inspection shall be conducted based on the set of criteria on identification and ranking of the potential breeding sites of each purok.

4. The criteria on the ranking of puroks to determine whether the area is considered a high-risk area are the following.

a.) number of vulcanizing shops

b.) water supply of level I or II

c.) number of dumping sites/junkyards/recycling center

d.) number of dengue cases for the past six months

5. The inspection is guided with the use of the Ocular Inspection Report Form. Please see Annex Form A.

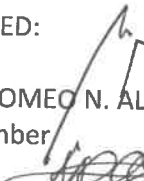

6. The inspection team shall conduct survey on the whole purok and determined the type of breeding site found and

2.3 If there are more than 10 houses, get at least 10% of the total number of houses within the 200-300 m radius. (Sample the houses randomly)

2.4 The houses should not be lower than 10 in numbers.

2.5 If there are only 10 houses, set the traps in all these houses.

2.6 PPP or BHW will set-up the ovitraps / larvitrap on the identified household or establishment as surveillance sentinel site.

2.7 Place the lawanit paddle inside the black colored container half-filled with water. This is called the ovitrap/larvitrap.

2.8 There shall be one ovitrap/larvitrap for indoor and one ovitrap /larvitrap for outdoor.

2.9 Put the ovitrap/larvitrap in a secured dark corner inside / outside the house or establishment, safe from small children and animals (e.g. under the sink, corner of the room, under the bed, under the cabinet, near shoe rack). For ovitrap / larvitrap placed outdoors, ensure that it is in a safe place, protected from spilling over or contamination.

2.10 Leave the trap for 7 – 10 days.

Note: do not set the ovitrap / larvitrap near the garbage can or laundry room.

3. Collection.

3.1 Collect the lawanit / paddle after 7-10 days. All ovitraps / larvitrap should be collected at the same time and NOT later than 10 days.

3.2 Label the paddles. Indicate the house number, date and specify whether indoor or outdoor.

3.3 Place the paddle inside a container/brown coin envelop.

3.4 Note for larvae in the black container. Pour out the water in the black container on dry soil. Clean the black container thoroughly to ensure that no eggs are attached inside the container.

3.5 Put water inside the container. Remove the paddle from the container and immerse in water if you have time, otherwise, it can be done 2 or 3 days after. Leave for 3-5 days to allow the larvae to develop. Observed for the presence of larvae. If seen, the trap (+), otherwise, indicate it is negative (-). Note the result accordingly.

3.6 Collect the larvae, label as to indoor or outdoor, house number and submit for vector identification.

3.7 Dispose the water with larvae properly and clean the paddle immediately for subsequent usage.

3.8 The specimen shall be submitted to the MSI for vector identification.
