Dear Vice Governor Javier,

This refers to the above-entitled *Joint Application* filed by Don Orestes Romualdez Electric Cooperative, Inc. and FDC Misamis Power Corporation before the Energy Regulatory Commission ("ERC") docketed as ERC Case No. 2024-078 RC.

The ERC promulgated an *Order* and a Notice of Virtual Hearing (the "*Notice*"), both dated 25 June 2024, setting the hearings for the *Joint Application* on **01 August 2024** and **08 August 2024**.

In compliance with the Order, we are furnishing the Office of the Provincial Governor with copies of the Order and Notice for posting on your bulletin board for public information. Accordingly, we respectfully **request three (3) original copies of the Certificate of Posting** signed by you or your duly designated representative, bearing the <u>dry seal and logo</u> of your office, certifying the receipt, and posting on your bulletin boards of the said ERC Order and Notice. Attached is a blank certification, which your office may opt to use for this purpose.

If you have no dry seal and logo, kindly make a small note on the lower left side of the certification (i.e., not using a dry seal and logo), so that we can manifest the same to the ERC.

As the Certificate of Posting is required to be submitted before the date of the initial hearing as part of the compliance with the jurisdictional requirements of the above-mentioned case, we would highly appreciate receiving the Certificate of Posting on or before 22 July 2024 (Monday). #### STATEMENT OF FACTS

- 7. Necessity for Power Supply: DORELCO executed a Power Purchase and Sale Agreement ("PPSA") with GNPower Dinginin Ltd. Co. ("GNPD") for 12 MW Baseload Power Supply, which was submitted to the Honorable Commission for approval under ERC Case No. 2016-051 RC.
- 8. However, as will be discussed below, the Honorable Commission ultimately directed DORELCO to stop implementing the *PPSA*; thus, DORELCO was constrained to look for alternative power suppliers and eventually executed the *DORELCO-FDCMPC EPSA* subject of this Joint Application.
  - 8.1. On 23 September 2016, the Honorable Commission issued an Order dated 05 July 2016 granting

Entitled, "Prescribing the policy for the mandatory conduct of the Competitive Selection Process by the Distribution Utilities for the procurement of power supply for their captive market".

<sup>7</sup> See Annex "FF" and series of the Joint Application.

<sup>8</sup> See Annex "GG" and series of the Joint Application.

provisional authority to DORELCO and GNPD to implement the *PPSA*.

- 8.2. On 03 May 2019, the Supreme Court rendered its Decision in the case of Alyansa Para sa Bagong Pilipinas, Inc. v. Energy Regulatory Commission, et al. (the "Alyansa Decision"), requiring all applications for approval of power supply agreements filed before the Honorable Commission on or after 30 June 2015 to comply with the Competitive Selection Process ("CSP") requirement provided under the DOE Department Circular No. DC2018-02-003.
- 8.3. In an Order dated 19 April 2023 for ERC Case No. 2016-051 RC, which was received by DORELCO on 21 September 2023,10 the Honorable Commission: (i) dismissed the application filed by DORELCO and GNPD for the approval of the PPSA; (ii) terminated the provisional authority granted to DORELCO and GNPD to implement the PPSA; and (iii) directed DORELCO and GNPD to stop implementing their PPSA immediately upon receipt of the Order.
- 8.4. In compliance with the above-cited *Order* DORELCO and GNPD stopped implementing the *PPSA*.
- 9. With the displacement of the 12 MW dependable capacity from GNPD, DORELCO is not able to cover its total demand requirements and is forced to purchase power from the Wholesale Electricity Spot Market ("WESM"), thereby exposing itself (and its consumers) to the volatile prices in the market.
- 10. DORELCO intends to account for the deficit supply in its upcoming Power Supply Procurement Plan and conduct the necessary CSP to secure its energy needs. However, the CSP process will take time thereby subjecting DORELCO to prevailing WESM market prices in the interim period.
- 11. All these conditions resulted into an emergency situation which prompted DORELCO to immediately procure emergency supply of energy.
- DORELCO then solicited offers from various generation companies<sup>11</sup> for their emergency power requirements, and FDCMPC's offer was the most advantageous given the circumstance. Accordingly, DORELCO entered into negotiations with FDCMPC for emergency power supply, and

<sup>11</sup> See Annex "Q" and series of the Joint Application.

Section 1, Rule VI of the Guidelines Governing Electronic Applications, Filings and Virtual Hearings Before the Energy Regulatory Commission provides that Orders by the Honorable Commission received beyond working hours or days shall be deemed received on the next working day. Considering that DORELCO received the Order dated 19 April 2023 for ERC Case No. 2016-051 RC on 5:09pm, 20 September 2023, the Order was deemed received by DORELCO on 21 September 2023.

eventually executed the *DORELCO-FDCMPC EPSA* subject of the instant Joint Application.

13. Notably, on 10 August 2023, the Honorable Commission issued an Advisory approving a "Transition Period" to allow distribution utilities, like DORELCO, an opportunity to negotiate an emergency power sales agreement for their respective power requirements.<sup>12</sup>

The conduct of a CSP is not required and the DORELCO-FDCMPC EPSA is immediately implementable

DORELCO need not undergo a CSP prior to execution of the DORELCO-FDCMPC EPSA. Moreover, the DORELCO-FDCMPC EPSA is immediately implementable upon its execution consistent with prevailing regulations of the Honorable Commission and the DOE.

- 26. As mentioned above, the Honorable Commission granted distribution utilities affected by the *Alyansa* Decision, like DORELCO, an opportunity to negotiate an emergency power sales agreement for their respective power requirements.
- 27. Under Sections 2.3 and 2.3.5 of the DOE's DC2023-06-0021, the conduct of a CSP is not required for the negotiated procurement of emergency power supply, and the filing of an emergency power supply agreement with the Honorable Commission does not need any prior clearance or certification from the DOE.
- 28. Moreover, in an Advisory dated 07 June 2023 as amended by another Advisory dated 23 June 2023,20 the Honorable Commission stated that an emergency power supply agreement shall be immediately implementable upon its execution, and the rates to be charged shall be capped at the latest ERC-approved generation tariff for the same technology in comparable areas.

## ALLEGATIONS RELATIVE TO THE PRAYER FOR CONFIDENTIAL TREATMENT OF INFORMATION

- 29. Section 1, Rule 4 of the ERC Revised Rules of Practice and Procedure provides that a party to a proceeding before the Honorable Commission may move for information to be treated as confidential.
- 30. Pursuant thereto, FDCMPC prays that the information contained in the documents enumerated below be treated as CONFIDENTIAL and that the same be continuously protected from public disclosure, except to the officers and staff of the Honorable Commission (collectively referred to as "Confidential Documents"):

Annex	Documents/Information

- 31. The Confidential Documents contain certain non-public information, data, and calculations involving business operations and financial trade secrets reflecting FDCMPC's investment and business calculations. As such, the foregoing information, data, and calculations fall within the bounds of "trade secrets" that are entitled to protection under the law.
- 32. In the case Air Philippines Corporation vs. Pennswell Inc,<sup>21</sup> the Supreme Court defined "trade secret" as follows:

"A trade secret is defined as a plan or process, tool, mechanism, or compound known only to its owner and those of his employees to whom it is necessary to confide it. The definition also extends to a secret formula or process not patented, but known only to certain individuals using it in compounding some article of trade having commercial value. A trade secret may consist of any formula, pattern, device, or compilation of information that (1) is used in one's business; and (2) gives the employer an opportunity to obtain advantage competitors who do not possess information. Generally, a trade secret is a process or device intended for continuous operation of the business, for example, a machine or formula, but can be a price list or catalogue or specialized customer list. It is indubitable that trade secrets constitute proprietary rights."

- 33. Also, the Confidential Documents were prepared and developed for the exclusive use of FDCMPC, and is designed for the specific use of the company in its power generation business. Consequently, should the same be disclosed to the public, they could easily be copied or used by FDCMPC's competitors or other entities engaged in the power business for their own benefit, and to the prejudice of FDCMPC.
- 34. The interest of DORELCO's consumers is sufficiently protected by the review and evaluation of the rates under the EPSA by the Honorable Commission, without the need to disclose the contents of the Confidential Documents.
- 35. Given the foregoing, the Confidential Documents qualifies as "confidential information" and FDCMPC respectfully moves for the issuance of a Protective Order to this effect.

## ALLEGATIONS IN SUPPORT FOR THE ISSUANCE OF PROVISIONAL AUTHORITY

36. The Joint Applicants recognize the importance of the continued operation of DORELCO and its ability to

<sup>&</sup>lt;sup>21</sup> G. R. No. 172835, 13 December 2007.

continuously supply electricity to the consumers within its franchise area. While DORELCO intends to account for the deficit supply, this process will take time and DORELCO's consumers will need the assurance of seamless, stable and reliable power while it prepares for the CSP.

- 37. Consequently, DORELCO was compelled to enter into the DORELCO-FDCMPC EPSA to ensure an adequate power supply at a rate advantageous to its consumers. In order to ensure the sustainability of their operations, DORELCO should be permitted to collect the rates, fees, and charges provided in the DORELCO-FDCMPC EPSA from its customers, as accordingly charged by FDCMPC against DORELCO pursuant to the same agreement. Any rate lower than the one specified in the DORELCO-FDCMPC EPSA is not economically feasible and goes against the regulatory principle of enabling generation companies to recover fair and reasonable costs along with a reasonable return.
- 38. The provisional approval of the EPSA will enable both DORELCO and FDCMPC to fulfill their obligations without compromising the viability of their operations.
- 39. The Affidavits of Juan Eugenio L. Roxas, President and CEO of FDCMPC, and Allan L. Laniba, General Manager of DORELCO, attesting to the truth of the above matters and in support of the prayer for provisional authority are attached as Annexes "CC" and "CC-1".
- 40. Pursuant to the ERC Rules of Practice and Procedure, the Honorable Commission may exercise its discretion by granting a provisional authority or an Interim Relief prior to a final decision. It is understood that the provisional authority or Interim Relief sought by the Joint Applicants shall be subject to adjustments and other conditions that the Honorable Commission may impose.

#### PRAYER

WHEREFORE, premises considered, Joint Applicants DORELCO and FDCMPC most respectfully pray that the Honorable Commission:

- 1. ISSUE AN ORDER declaring the Confidential Documents attached hereto as Annexes "U", "U-1, "V", "V-1", "V-2", "W", "X", "X-1" "Z", "Z-1", and "LL" as confidential information as well as directing that the same be treated with confidentiality and be protected from public disclosure;
- 2. ISSUE the corresponding PROTECTIVE ORDER in accordance with Section 2, Rule 4 of the ERC Revised Rules of Practice and Procedure;
- 3. Pending trial on the merits, GRANT PROVISIONAL AUTHORITY to implement the *DORELCO-FDCMPC EPSA* and allow DORELCO to collect such rates, fees, and charges

#### STATEMENT OF FACTS

- 7. Necessity for Power Supply: DORELCO executed a Power Purchase and Sale Agreement ("PPSA") with GNPower Dinginin Ltd. Co. ("GNPD") for 12 MW Baseload Power Supply, which was submitted to the Honorable Commission for approval under ERC Case No. 2016-051 RC.
- 8. However, as will be discussed below, the Honorable Commission ultimately directed DORELCO to stop implementing the *PPSA*; thus, DORELCO was constrained to look for alternative power suppliers and eventually executed the *DORELCO-FDCMPC EPSA* subject of this Joint Application.
  - 8.1. On 23 September 2016, the Honorable Commission issued an Order dated 05 July 2016 granting provisional authority to DORELCO and GNPD to implement the *PPSA*.
  - 8.2. On 03 May 2019, the Supreme Court rendered its Decision in the case of Alyansa Para sa Bagong Pilipinas, Inc. v. Energy Regulatory Commission, et al. (the "Alyansa Decision"), requiring all applications for approval of power supply agreements filed before the Honorable Commission on or after 30 June 2015 to

<sup>9</sup> G.R. No. 227670, 03 May 2019.

comply with the Competitive Selection Process ("CSP") requirement provided under the DOE Department Circular No. DC2018-02-003.

- 8.3. In an *Order* dated 19 April 2023 for ERC Case No. 2016-051 RC, which was received by DORELCO on 21 September 2023, 10 the Honorable Commission: (i) dismissed the application filed by DORELCO and GNPD for the approval of the PPSA; (ii) terminated the provisional authority granted to DORELCO and GNPD to implement the *PPSA*; and (iii) directed DORELCO and GNPD to stop implementing their *PPSA* immediately upon receipt of the *Order*.
- 8.4. In compliance with the above-cited *Order* DORELCO and GNPD stopped implementing the *PPSA*.
- 9. With the displacement of the 12 MW dependable capacity from GNPD, DORELCO is not able to cover its total demand requirements and is forced to purchase power from the Wholesale Electricity Spot Market ("WESM"), thereby exposing itself (and its consumers) to the volatile prices in the market.
- 10. DORELCO intends to account for the deficit supply in its upcoming Power Supply Procurement Plan and conduct the necessary CSP to secure its energy needs. However, the CSP process will take time thereby subjecting DORELCO to prevailing WESM market prices in the interim period.
- 11. All these conditions resulted into an emergency situation which prompted DORELCO to immediately procure emergency supply of energy.
- 12. DORELCO then solicited offers from various generation companies<sup>11</sup> for their emergency power requirements, and FDCMPC's offer was the most advantageous given the circumstance. Accordingly, DORELCO entered into negotiations with FDCMPC for emergency power supply, and eventually executed the *DORELCO-FDCMPC EPSA* subject of the instant Joint Application.
- 13. Notably, on 10 August 2023, the Honorable Commission issued an Advisory approving a "Transition Period" to allow distribution utilities, like DORELCO, an opportunity to negotiate an emergency power sales agreement for their respective power requirements.<sup>12</sup>

Section 1, Rule VI of the Guidelines Governing Electronic Applications, Filings and Virtual Hearings Before the Energy Regulatory Commission provides that Orders by the Honorable Commission received beyond working hours or days shall be deemed received on the next working day. Considering that DORELCO received the Order dated 19 April 2023 for ERC Case No. 2016-051 RC on 5:09pm, 20 September 2023, the Order was deemed received by DORELCO on 21 September 2023.

See Annex "Q" and series of the Joint Application.
 See Annex "HH" and series of the Joint Application.

The conduct of a CSP is not required and the DORELCO-FDCMPC EPSA is immediately implementable

- 25. DORELCO need not undergo a CSP prior to execution of the DORELCO-FDCMPC EPSA. Moreover, the DORELCO-FDCMPC EPSA is immediately implementable upon its execution consistent with prevailing regulations of the Honorable Commission and the DOE.
- 26. As mentioned above, the Honorable Commission granted distribution utilities affected by the *Alyansa* Decision, like DORELCO, an opportunity to negotiate an emergency power sales agreement for their respective power requirements.
- 27. Under Sections 2.3 and 2.3.5 of the DOE's DC2023-06-0021, the conduct of a CSP is not required for the negotiated procurement of emergency power supply, and the filing of an emergency power supply agreement with the Honorable Commission does not need any prior clearance or certification from the DOE.

28. Moreover, in an Advisory dated 07 June 2023 as amended by another *Advisory* dated 23 June 2023,<sup>20</sup> the Honorable Commission stated that an emergency power supply agreement shall be immediately implementable upon its execution, and the rates to be charged shall be capped at the latest ERC-approved generation tariff for the same technology in comparable areas.

## ALLEGATIONS RELATIVE TO THE PRAYER FOR CONFIDENTIAL TREATMENT OF INFORMATION

- 29. Section 1, Rule 4 of the ERC Revised Rules of Practice and Procedure provides that a party to a proceeding before the Honorable Commission may move for information to be treated as confidential.
- 30. Pursuant thereto, FDCMPC prays that the information contained in the documents enumerated below be treated as *CONFIDENTIAL* and that the same be continuously protected from public disclosure, except to the officers and staff of the Honorable Commission (collectively referred to as "Confidential Documents"):

Annex	Documents/Information
"U"	FDCMPC Sources of Funds and Financial
	Plans
"U-1"	FDCMPC Bank Certifications
"V"	FDCMPC Generation Rate and Derivation
"V-1"	FDCMPC Basis of Other Charges
"V-2"	FDCMPC Financial Model, Project Costs, and
	Breakdown of Costs
"W"	FDCMPC Cash Flow
"X"	FDCMPC Fuel Supply Procurement Process
"X-1"	FDCMPC Certification on Spot Fuel

"Z"	FDCMPC Relevant Technical and Economic
	Characteristics of the Generation Capacity
"Z-1"	FDCMPC Engineering, Procurement, and
	Construction Contract Certification
"LL"	FDCMPC Sample Computation of Power
	Rates

31. The Confidential Documents contain certain non-public information, data, and calculations involving business operations and financial trade secrets reflecting FDCMPC's investment and business calculations. As such, the foregoing information, data, and calculations fall within the bounds of "trade secrets" that are entitled to protection under the law.

<sup>20</sup> See Annexes "II" and "II-2" of the Joint Application.

32. In the case Air Philippines Corporation vs. Pennswell Inc,<sup>21</sup> the Supreme Court defined "trade secret" as follows:

"A trade secret is defined as a plan or process, tool, mechanism, or compound known only to its owner and those of his employees to whom it is necessary to confide it. The definition also extends to a secret formula or process not patented, but known only to certain individuals using it in compounding some article of trade having commercial value. A trade secret may consist of any formula, pattern, device, or compilation of information that (1) is used in one's business; and (2) gives the employer an opportunity to obtain advantage who do not competitors possess information. Generally, a trade secret is a process or device intended for continuous operation of the business, for example, a machine or formula, but can be a price list or catalogue or specialized customer list. It is indubitable that trade secrets constitute proprietary rights."

- 33. Also, the Confidential Documents were prepared and developed for the exclusive use of FDCMPC, and is designed for the specific use of the company in its power generation business. Consequently, should the same be disclosed to the public, they could easily be copied or used by FDCMPC's competitors or other entities engaged in the power business for their own benefit, and to the prejudice of FDCMPC.
- 34. The interest of DORELCO's consumers is sufficiently protected by the review and evaluation of the rates under the EPSA by the Honorable Commission, without the need to disclose the contents of the Confidential Documents.
- 35. Given the foregoing, the Confidential Documents qualifies as "confidential information" and FDCMPC respectfully moves for the issuance of a Protective Order to this effect.

## ALLEGATIONS IN SUPPORT FOR THE ISSUANCE OF PROVISIONAL AUTHORITY

- 36. The Joint Applicants recognize the importance of the continued operation of DORELCO and its ability to continuously supply electricity to the consumers within its franchise area. While DORELCO intends to account for the deficit supply, this process will take time and DORELCO's consumers will need the assurance of seamless, stable and reliable power while it prepares for the CSP.
- 37. Consequently, DORELCO was compelled to enter into the DORELCO-FDCMPC EPSA to ensure an adequate power supply at a rate advantageous to its consumers. In order to

<sup>21</sup> G. R. No. 172835, 13 December 2007

ensure the sustainability of their operations, DORELCO should be permitted to collect the rates, fees, and charges provided in the *DORELCO-FDCMPC EPSA* from its customers, as accordingly charged by FDCMPC against DORELCO pursuant to the same agreement. Any rate lower than the one specified in the *DORELCO-FDCMPC EPSA* is not economically feasible and goes against the regulatory principle of enabling generation companies to recover fair and reasonable costs along with a reasonable return.

- 38. The provisional approval of the EPSA will enable both DORELCO and FDCMPC to fulfill their obligations without compromising the viability of their operations.
- 39. The Affidavits of Juan Eugenio L. Roxas, President and CEO of FDCMPC, and Allan L. Laniba, General Manager of DORELCO, attesting to the truth of the above matters and in support of the prayer for provisional authority are attached as Annexes "CC" and "CC-1".
- 40. Pursuant to the ERC Rules of Practice and Procedure, the Honorable Commission may exercise its discretion by granting a provisional authority or an Interim Relief prior to a final decision. It is understood that the provisional authority or Interim Relief sought by the Joint Applicants shall be subject to adjustments and other conditions that the Honorable Commission may impose.

- 2. ISSUE the corresponding PROTECTIVE ORDER in accordance with Section 2, Rule 4 of the ERC Revised Rules of Practice and Procedure;
- 3. Pending trial on the merits, GRANT PROVISIONAL AUTHORITY to implement the *DORELCO-FDCMPC EPSA* and allow DORELCO to collect such rates, fees, and charges as provided in the EPSA from its customers reckoned from the start of the supply by FDCMPC to DORELCO; and
- 4. After due notice and hearing, ISSUE A DECISION (i) approving the instant Joint Application in toto which will thereby allow/authorize DORELCO to charge and collect the fees from its consumers reckoned from the commencement of the supply to the latter by FDCMPC; and (ii) directing that the

rates, terms, and conditions of the *DORELCO-FDCMPC EPSA* be retroactively applied for the entire term of the EPSA.
