ORDINANCE NO. 2024 – 07

AN ORDINANCE ENACTING THE INSTALLATION OF BEHAVIORAL NUDGES IN PRIORITY SETTINGS FOR THE MUNICIPALITY OF TANAUAN, LEYTE.

Sponsored by : Hon. Jasmin U. Borja

BE IT ENACTED BY THE SANGGUNIANG BAYAN OF TANAUAN, LEYTE IN REGULAR SESSION ASSEMBLED THAT:

Section 1. Short Title. This ordinance shall be known and cited as the Hygiene Behavioral Nudges Ordinance of 2024.

Section 2. Declaration of Principles and Policies. It is the policy of the Municipality of Tanauan to promote the health and safety of its constituents through the provision of basic services and facilities related to sanitation and hygiene. Towards this end, the Municipality of Tanauan shall adopt:

- a. Evidence-based, low-cost, and easily scalable behavioral nudges which institutionalize the promotion and practice of proper hand hygiene and infection prevention and control measures in priority settings; and
- b. A behavior-centered design approach to changing attitudes and behavior towards frequent and proper handwashing and other hygiene practices in line with national efforts to shift into the New Normal.

Section 3. General Objectives. This Ordinance seeks to:

- a. Reinforce the provision or establishment of functioning and well-maintained hand washing facilities with soap and water and/or sanitation stations with alcohol-based hand rub dispensers in priority settings.
- b. Promote proper sanitation and hygiene behavior through appropriate, well-designed

[Signature]

[Signature]

[Signatures]

behavioral nudges which influence and encourage proper hand washing and other hygiene practices;

c. Prevent and control the transmission of COVID-19 and other infectious diseases by providing strategic interventions to cue proper hygiene behavior in priority settings of the Tanauan.

d. Provide a safe environment for all people, especially vulnerable groups, such as the elderly, pregnant women, and immunocompromised individuals, to conduct essential activities in the New Normal.

Section 4. Scope and Coverage. This Ordinance shall include and cover:

a. Priority settings, primarily, but not limited to: (i) Schools; (ii) Offices and Workplaces; (iii) Public Markets and Grocery Stores; (iv) Food and Service Establishments; (v) Temporary Shelters and Evacuation Centers; (vi) Public Spaces (e.g. Malls, Hotels and Other Accommodations, Transport Terminals and Ports of Entry, Churches and Places of Worship, Government Centers and Offices, Historical and Heritage Sites, Local Tourist Destinations, Sports and Recreational Spaces); (vii) Hospitals, Health Centers and Rural Health Units; within the territorial jurisdiction of Tanauan;

b. Establishment of functioning, accessible, and well-maintained handwashing facilities with soap and water and/or sanitation stations with alcohol-based hand rub dispensers within the premises of aforementioned priority settings and other public spaces identified by the Municipality of Tanauan, as well as the implementation of behavioral nudges which influence and encourage proper handwashing and other hygiene practices.

Section 5. Definition of Terms. As used in this Ordinance, the following terms shall mean:

a. Behavioral Nudges are small changes to the environment that alter behavior in a predictable way but do not explicitly constrain choices.

b. Behavioral Nudges Master Plan refers to the comprehensive implementation and evaluation plan for the installation of behavioral nudges, which includes stakeholder consultations, selection of priority settings and strategic areas for hand hygiene facilities, development of nudge materials, pilot testing, and identification of budget items or sources, among others.

c. Behavior-Centered Design (BCD) is an approach developed at the London School of Hygiene and Tropical Medicine. BCD draws on evolutionary psychology, the latest techniques in marketing and existing behavior change approaches. BCD is concerned with how design can shape or be used to influence human behavior.

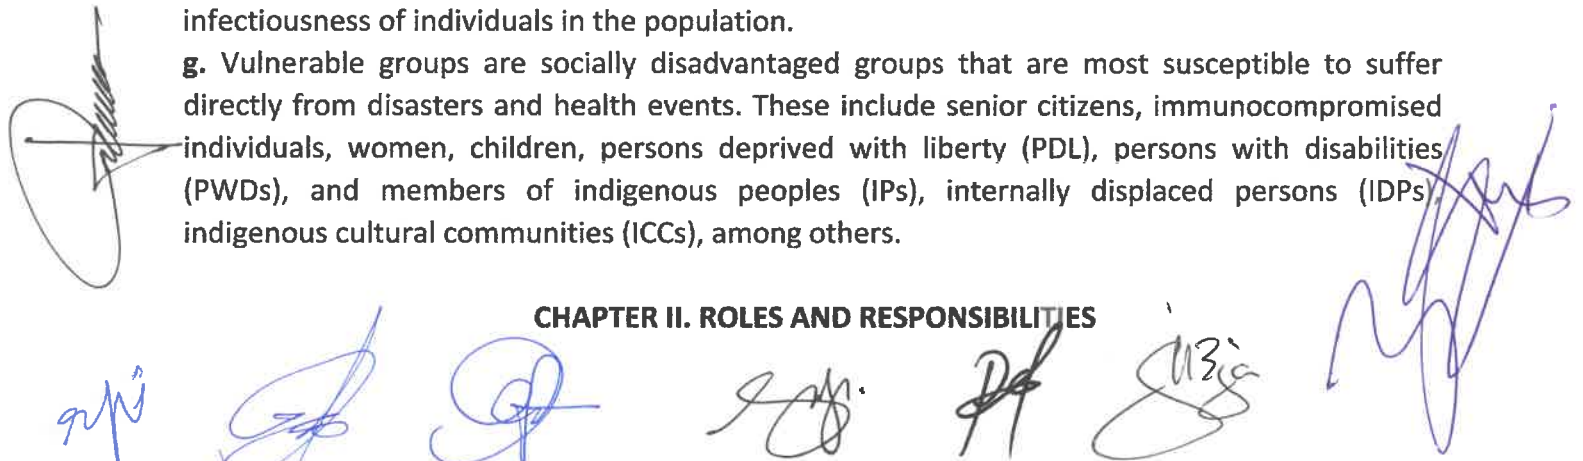

d. Infection Prevention and Control (IPC) is the discipline concerned with preventing healthcare-associated infection.

e. New Normal refers to the emerging behaviors, situations, and minimum public health standards that will be institutionalized in common or routine practices and remain even after the pandemic while the disease is not totally eradicated through means such as widespread immunization. These include actions that will become second nature to the general public as well as policies such as bans on large gatherings that will continue to remain in force.

f. Non-pharmaceutical Interventions (NPI) refers to public health measures that do not involve vaccines, medications or other pharmaceutical interventions that individuals and communities can carry out in order to reduce transmission rates, contact rates, and the duration of infectiousness of individuals in the population.

g. Vulnerable groups are socially disadvantaged groups that are most susceptible to suffer directly from disasters and health events. These include senior citizens, immunocompromised individuals, women, children, persons deprived with liberty (PDL), persons with disabilities (PWDs), and members of indigenous peoples (IPs), internally displaced persons (IDPs), indigenous cultural communities (ICCs), among others.

CHAPTER II. ROLES AND RESPONSIBILITIES

Section 6. Municipal Health Office. As the principal implementer of this Ordinance. The Municipal Health Office shall lead the development and installation of behavioral nudges in priority settings. In this capacity, the Office shall undertake the following:

- a. Lead the development of the Behavioral Nudge Master Plan, in collaboration with the Local Health Board, local implementers, representatives of relevant government agencies (DepEd, DILG), local businesses/ establishments related to identified settings, vulnerable or marginalized sectors (women, youth, elderly, PWDs), local people's organizations, and schools.
- b. Identify priority settings covered by this Ordinance in which handwashing facilities or sanitation stations shall be available and accessible, and behavioral nudges shall be installed.
- c. Execute appropriate strategies for the development of technical and design specifications of behavioral nudges suitable for each identified installation area, and for the pilot testing of customized designs within controllable and observable settings, if applicable; Prepare costing for behavioral nudge materials to be produced and other related activities to be conducted, including installation of handwashing facilities and/or sanitation stations and procurement of supplies (e.g., alcohol, soap, single-use towels) as needed, and facilitate all necessary financial documentary requirements;
- d. Facilitate the conduct of capacity building activities for identified local implementers (e.g., C/MHOS, HEPOs, Sanitary Engineers & Inspectors, Public Health Nurses, etc.) to ensure effective development and implementation of the intervention.
- e. Produce and install behavioral nudges in identified settings with handwashing facilities and/or sanitation stations;
- f. Develop and oversee communication efforts, community engagement activities, and auxiliary programs, projects, and activities as applicable;
- g. Develop and implement a local monitoring system for routine inspection, maintenance, and evaluation of installed behavioral nudges;
- h. Oversee monitoring and evaluation activities related to the implementation of this Ordinance and analyze results to determine necessary next steps, such as adjusting/modifying existing set of nudges, redesigning, or installing a new set of nudges, and frequency of such actions;
- i. Consolidate and discuss findings and recommendations with local implementers, the Local Health Board, and stakeholders for any necessary adjustment of the Behavioral Nudge Master Plan.

CHAPTER III. BEHAVIORAL NUDGES IN PUBLIC SPACES

Section 7. Establishment and Maintenance of Enabling Environment. The Municipality of Tanauan, in support of the installation of behavioral nudges in priority settings, shall endeavor to:

a. Establish and properly maintain handwashing facilities *and/or* sanitation stations within the premises of priority settings covered by this Ordinance and other public spaces identified by the Municipality.

b. The placement and design of handwashing facilities shall be carefully considered, especially when permanent structures are built. The following must be taken into account:

i. Proximity to locations where handwashing should occur so they are able to contribute to breaking the transmission cycle of disease:

- ii. Ample space must be available for the facility and this space must also consider the safety and security of users and shall not cause obstruction;
- iii. Foot traffic in the area, such that facilities must be in spaces frequented by people; Access to tappable water lines and drainage systems;
- iv. Appeal, affordability, and ease of maintenance;
- v. Consider if roofing above the facility is needed to protect from the weather and other elements.
 - c. Ensure the availability and sustained access to a regular supply of water sufficient for handwashing and other personal hygiene needs;
 - d. Ensure the consistent availability of soap and alcohol-based hand rub in handwashing facilities and sanitation stations. Systems shall also be in place for regularly monitoring and replenishing the supply of such;
 - e. Install drying equipment and/or provide supplies such as single-use paper towels that can be used to dry hands.
 - f. Ensure regular maintenance of equipment and replenishment of supplies.
 - g. Ensure that handwashing facilities and sanitation stations are free from any obstructions and accessible to all people regardless of age, gender, or disability. This can be done by placing clear paths or ramps, small foot stools, or adjusting the height and size of the facility, among others.

Section 8. Behavioral Nudges. Once hand hygiene infrastructure and supplies are deemed functional and accessible, appropriate behavioral nudges which alter the physical and social environment to encourage proper handwashing and hygiene practices shall be installed in handwashing facilities and sanitation stations in areas covered by this Ordinance.

- a. **Principles for Planning and Design.** In the planning of behavioral nudges, the Municipal Health Office shall employ strategies which include observation and engagement with target audiences in order to identify appropriate behavioral nudge designs suitable for different priority settings and ready to be widely rolled out. The following aspects and principles shall be considered to ensure the suitability and effectiveness of the nudges to be implemented and/or designed:
 - i. **Behavior-Centered Design.** Interventions meant to change behavior, such as nudges, must have an approach that is surprising to target audiences, causes a re-evaluation of the desired handwashing behavior, and ensures that it is more likely to win out as the best behavioral choice when the next opportunity arises.
 - ii. **EAST Principles.** Nudges must be easy, attractive, social, and timely. Behavioral nudges shall be devised with simple and clearly understandable messaging, eye-catching and attractive colors and designs, and a social dimension to reinforce handwashing behavior as a norm. These shall also be positioned in areas where target audiences are more receptive to the nudge, such as outside toilet cubicles or at entrances of dining areas.
 - iii. **Resources and Environment.** Costs of installing and maintaining the different nudges and cues shall be considered in the selection and development of interventions. Affordability, availability, and feasibility of producing the materials locally shall also be taken into account, as well as the conduciveness of specific environments in which the nudges are to be installed.

iv. Inclusivity. Nudges must also be inclusive and consider how all target audiences in the different settings and spaces will be able to interact with these. Similar to handwashing

facilities and sanitation stations, nudges installed in these areas must be free from obstructions and shall appropriately cater to age, gender, or disability of users.

Section 9. Maintenance and Reinstallation. The Municipality of Tanauan, through the Municipal Health Office or other such relevant offices, shall strictly implement a local monitoring system which considers the estimated life of the nudges and handwashing facilities where they are installed, estimated cost of maintenance and repair, and availability of resources for such.

a. Based on this system, the designated office or individuals shall routinely inspect and assess whether behavioral nudges and the handwashing facilities or sanitation stations where they are installed are in need of maintenance, repair, or reinstallation.

b. Maintenance works for facilities and nudges include, but are not limited to, cleaning, de-clogging, fixing leaks, repainting, and refilling paper towel, soap, or hand rub dispensers.

Section 10. Auxiliary Programs, Projects, and Activities. The Municipality of Tanauan, , in support of the installation of behavioral nudges in priority settings, shall endeavor to develop multimodal strategies to further encourage and sustain proper hand hygiene behavior, such as, but not limited to:

a. Promoting proper sanitation and hand hygiene among households, office workers, and students by investing in and strategically distributing free hygiene kits;

b. Exploring incentive mechanisms to encourage private entities, business establishments, and other commercial facilities to ensure availability of hand hygiene infrastructure and supplies, to install behavioral nudges, and to implement other innovative hand hygiene measures;

c. Undertaking research to identify key determinants of hand hygiene behavior for specific local contexts and settings in order to develop interventions complementary to nudges, such as awareness campaigns, practical demonstrations, or using role models to promote hand hygiene;

d. Integrating proper sanitation and hygiene norms into school or workplace policies;

e. Conducting capacity building activities to enable faculty/staff/employees to effectively teach and promote proper sanitation and hygiene;

f. Promoting proper and regular handwashing practice through a communication strategy which includes disseminating materials in local television and radio stations, print media, and social media channels and conducting community activities such as caravans or *bandilyos* to play jingles reminding people to wash their hands with soap and water.

Section 11. Mandatory Installation of Hygiene Behavioral Nudges. The Municipality of Tanauan may endeavor to require the installation of behavioral nudges in handwashing facilities and sanitation stations, as a regulatory requirement prior to the reopening of schools, operation of establishments, or renewal or issuance of local Sanitary and/or

Business Permit/s to offices, establishments, buildings, and other areas covered by this Ordinance.

CHAPTER IV. ENFORCEMENT AND PENALTIES

Section 12. Enforcement and Penalties. The following shall be observed in the enforcement of this Ordinance and other existing rules related to the installation of behavioral nudges in priority settings:

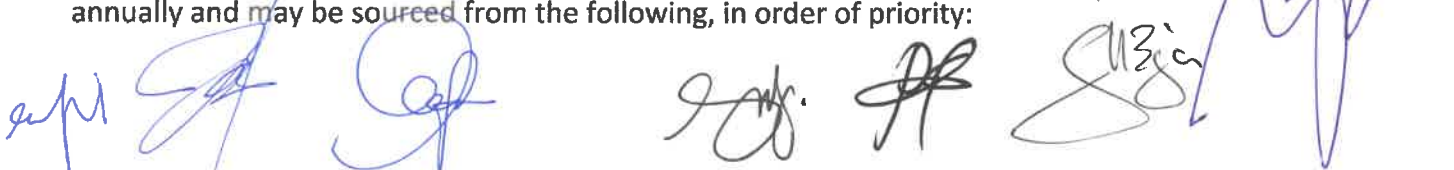

- a. Violation of, disobedience, refusal, omitting or neglecting to comply with any of the rules and regulations promulgated under the Sanitation Code of the Philippines shall be considered as misdemeanor and upon conviction shall be punished by imprisonment for a period not exceeding six (6) months or by a fine not exceeding P1000.00 or both depending upon the discretion of the court.
- b. Interference with, hindrance, or opposition to any officer or representative of the Department or the Municipal Health Office, in the performance of his duty as such under the Sanitation Code and this Ordinance, shall be considered as *misdemeanor*, and shall be punishable upon conviction by imprisonment for a period not exceeding six (6) months or by a fine not exceeding P1000.00 or both depending upon the discretion of the court.
- c. Tearing down, mutilation, defacement or alteration of any placard or notice affixed to the premises in the enforcement of the Sanitation Code shall constitute *misdemeanor* and be punishable upon conviction by imprisonment for a period not exceeding six (6) months or by a fine not exceeding P1000.00 or both depending upon the discretion of the court.
- d. Defacement, vandalism, or removal of installed behavioral nudges or any damage to handwashing facilities and sanitation stations shall be considered as special cases of *malicious mischief* or *damage to public property* under The Revised Penal Code (Act No. 3815 and R.A. No. 10951) and existing Municipal ordinances, and shall be subject to appropriate action and penalties.
- e. Unlawful taking of supplies or equipment from handwashing facilities and sanitation stations, such as, but not limited to soaps, alcohol-based hand rubs, paper towels, hand dryers, soap dishes, dispensers, faucets, and pipes, shall be considered as *theft* under The Revised Penal Code and existing Municipal ordinances, and shall be subject to appropriate action and penalties.

CHAPTER V. MONITORING

Section 13. Reporting and Monitoring. The Municipal Health Office shall lead and oversee the regular monitoring and evaluation of the implementation of the behavioral nudge intervention. It may designate other relevant office/s or individuals to carry out monitoring activities in the different priority settings and strategic areas provided that all data gathered shall be submitted to and consolidated by the Municipal Health Office for regular reporting to the Local Health Board. These data shall also be used to decide on necessary actions, such as adjusting or modifying existing set of nudges, redesigning, or installing a new set of nudges, and the frequency of such actions.

CHAPTER VI. APPROPRIATIONS

Section 14. Appropriations. The funding necessary to implement the provisions of this Ordinance, to install behavioral nudges, and implement other related activities, as determined by the Municipal Health Office in its approved Work and Financial Plan shall be earmarked annually and may be sourced from the following, in order of priority:

- a. The LGU's annual National Tax Allotment (NTA);
- b. National Government Agency (NGA) subsidy to related programs, projects, and activities through the relevant agencies; and
- c. Supplemental funding requests from relevant NGAs.

CHAPTER VII. FINAL PROVISIONS

Section 15. Implementing Rules and Regulations (IRR). The Municipal Mayor may issue appropriate and relevant rules and regulations, as necessary for the proper implementation of any and all provisions of this Ordinance.

Section 16. Repealing Clause. All other orders and issuances, as well as pertinent rules and regulations thereof, which are inconsistent with any of the provisions in this Ordinance are hereby repealed or amended accordingly.

Section 17. Effectivity. This ordinance shall take effect upon its approval.

**MINUTES OF THE PUBLIC HEARING
FEBRUARY 28, 2024**

Presidencia Lobby, Tanauan Town Hall, Tanauan, Leyte

I. PRELIMINARY

In attendance was the Sponsor of the proposed Ordinance— Hon. Jasmin U. Borja; with the Chairman of the Committee on Laws – Hon. Atty. Isagani S. Espada; the ABC Vice-President – Hon. Efren C. Merilo; the SK Federation President – Hon. Kyle C. Mesias; and the representatives from the Department of Health.

Also in attendance were representatives from the different Offices of the local government of this municipality, representatives from the different schools in the municipality, from the Senior Citizens Organizations; and the Chairpersons of the Fifty-Four (54) Barangays in the municipality.

II. PRESENTATION OF THE FOLLOWING PROPOSED ORDINANCE.

The Local Legislative Officer presented the provisions of the proposed Ordinance entitled **"A PROPOSED ORDINANCE ENACTING THE INSTALLATION OF BEHAVIORAL NUDGES IN PRIORITY SETTINGS FOR THE MUNICIPALITY OF TANAUAN, LEYTE"** Sponsored by Hon. Jasmin U. Borja, to which the salient provisions thereof are as follows:

1. the policies and basis for the legislative measure which are related to and in pursuance of sanitation and hygiene;
2. the objectives in which, among others, include the establishment of functioning and well-maintained hand hygiene facility for the promotion of proper sanitation and hygiene behavior;
3. the coverage or priority settings or the establishments of the said facilities in public settings;
4. the roles and responsibilities of the municipal government of Tanauan and other stakeholders;
5. the enforcement and penalties for any violations of the provisions thereof; and
6. the appropriation in the implementation thereof.

III. OPEN FORUM

The resource persons from the academe expressed their gratitude for the initiative of having the said legislative measure and manifested that they have been implementing the same within the school premises although their main challenge in the maintenance of the said facilities is the poor to zero water supply.

Ms. Almanza also suggested that in the implementation of the said facility, the target users must be considered since in order to accommodate the kids and the same shall be child-friendly or in such a way that the same will not be easily be destroyed by kids when unmonitored.

1 The chairperson of Brgy Sacme and Brgy. Camire also emphasized their concern on the
2 low water supply such that they suggested that the LGU should address first the problem on
3 water supply before the ordinance on the installation of the hand washing facility.

4 The SB Members present together with the Sponsor and the Resource Persons from the
5 Department of Health, thoroughly explained the importance of institutionalizing the said facilities
6 in the municipality especially in promoting health and proper hand washing hygiene. The SB
7 Member also further explained that they would lobby and initiate separate legislative measure
8 in order to address the concern on the low water supply in the municipality.

9 **IV. ADJOURNMENT**

10 Having no further queries or comments, the Public Hearing was adjourned at 03:25 in the
11 afternoon.

12 **CERTIFIED TRUE AND CORRECT:**
