SANGGUNIANG PANLALAWIGAN

COMMITTEE ON ENVIRONMENT AND NATURAL RESOURCES

Committee Report

Referred to this committee per SP Resolution No. 2024-335 dated August 13, 2024, is Matag-ob, Leyte Resolution No. 24-156 series 2024, titled, "A Resolution Requesting the Honorable Sangguniang Panlalawigan of Leyte through the Presiding Officer, Honorable Leonardo "Sandy" M. Javier, Jr., Provincial Vice Governor, to Review and Approve the Herein Attached Water Supply Improvement Project Plan of the Municipality of Matag-ob, Leyte."

After a thorough study and review of the attached "Water Supply Improvement Project Plan of the Municipality of Matag-ob, Leyte" and the ocular inspection in Matag-ob, Leyte conducted by Vice Chairperson Atty. Carlo P. Loreto, BM Flaviano C. Centino, Jr. and the technical staff of the Provincial Engineer's Office (PEO), the Committee finds in favor of the approval of the same. The Committee concurs with the "Matag-ob Water Source Inspection Report" submitted by the Provincial Engineer's Office (PEO) and recognizes the urgent need to improve the water sources in Matag-ob, Leyte, to meet the current water supply shortage thereat and the foreseeable water supply requirements in the future.

In view thereof, this Committee hereby recommends for the approval of the Water Supply Improvement Project Plan of the Municipality of Matag-ob, Leyte.

Submitted this 17th day of September, 2024, Palo, Leyte

MATAG-OB WATER SOURCE INSPECTION REPORT

BULAK SPRING (BRGY. BULAK, MATAG-OB)

The Bulak Spring is situated at Brgy. Bulak, Matag-ob which is 4.6km away from the Matag-ob proper. It can be reached by vehicle from National Highway to proper Barangay Bulak and must walk roughly for 15 to 20 minutes to make it to the Bulak Spring. During the ocular inspection, it was observed that spring has a plenty of water that supplies the existing Intake Box. Due to its abundant water, the Intake Box cannot accommodate such volume which results for excess water to overflow, thus, needs to rehabilitate and imoprove. It has been said that the Bulak Spring serves the area mostly all the Barangays of the Poblacion, Matag-ob and nearby Barangays.

MASAB-A (BARRAKS) SPRING (BRGY. SAN VICENTE, MATAG-OB)

The Masab-a (Barraks) Spring is located at Brgy. San Vicente, Matag-ob. The center of Brgy. San Vicente is 6.7km away from the Matag-ob proper and can be reached through any vehicle, then must hike for 20 minutes to get to the Masab-a Spring. During the ocular inspection the existing intake box is already full of water supply which causes for the excess water to overflow. The Masab-a Spring has 3 water source points to which supplies the existing intake box, with this, the design of existing intake is too small that it cannot accommodate such large volume of water entering the box, thus, the construction of new and bigger intake box is needed. The Masab-a Spring only supplies and serves as the main water source of Brgy. San Vicente.
