Section 447 (a) (5) (i) of RA 7160, or otherwise known as the Local Government Code of 1991, states that the Sangguniang Bayan shall provide for the establishment, maintenance, protection, and conservation of communal forests *and watersheds*, tree parks, greenbelts, and other similar forest development projects.

Relative thereto, every municipality is mandated to exert efforts to establish, develop and maintain a permanent forest, tree parks or watershed areas within public lands owned by the municipality with an aggregate size equivalent to at least two percent of its entire area, Provided, that forest, park, or watershed areas may be located in one or more places within the municipality.

Section 2 of Republic Act No. 9275, or otherwise known as Philippine Clean Water Act of 2004, provides that the state shall pursue a policy of economic growth in a manner consistent with the protection, preservation and revival of the quality of our fresh waters. To achieve this end, the framework for sustainable development shall be pursued. As such, it shall be the policy of the State:

- a. To streamline processes and procedures in the prevention, control and abatement of pollution of the country's water resources;
- b. To promote environmental strategies, use of appropriate economic instruments and of control mechanisms for the protection of water resources;
- c. To formulate a holistic national program of water quality management that recognizes that water quality management issues cannot be separated from concerns about water sources and ecological protection, water supply, public health and quality of life;
- d. To formulate an integrated water quality management framework through proper delegation and effective coordination of functions and activities;
- e. To promote commercial and industrial processes and products that are environment friendly and energy efficient;
- f. *To encourage cooperation and self-regulation among citizens and industries through the application of incentives and market-based instruments and to promote the role of private industrial enterprises in shaping its regulatory profile within the acceptable boundaries of public health and environment;*
- g. To provide for a comprehensive management program for water pollution focusing on pollution prevention;
- h. To promote public information and education and to encourage the participation of an informed and active public in water quality management and monitoring;

- i. To formulate and enforce a system of accountability for short and long-term adverse environmental impact of a project, program or activity; and
- j. To encourage civil society and other sectors, particularly labor, the academe and business undertaking environment-related activities in their efforts to organize, educate and motivate the people in addressing pertinent environmental issues and problems at the local and national levels.

Likewise, RA No. 9275, mandates that Local Government Units shall share the responsibility in the management and improvement of water quality within their territorial jurisdictions.

It provides further, that every concerned agency, association and individuals shall extend efforts in order to conserve, protect, restore and enhance the water bodies within the local government unit, consistent with the rules and regulations authorized or promulgated by the Secretary for Agriculture and Natural Resources.

The Municipality of Jaro, Leyte recognizes on the need to conserve and protect the municipal waters and its resources within its territorial jurisdictions, and is committed to ensure the sustainable management, development and its conservation; henceforth, this proposed ordinance for the enactment of the Sangguniang Bayan.
