<i>HCCCI COMMUNITY PROGRAM TO GUINDAPUNAN EAST</i>	<p>Ms. President addressed the importance of health education and shared details about the upcoming awareness programs hosted by the HCCCI (Health Care and Community Care Initiative). These programs aim to provide crucial health-related information and guidance to individuals across various age groups, with a special focus on younger generations.</p> <p>As part of this initiative, we have been assigned the responsibility of identifying and selecting 40 participants from local elementary, middle, and high schools. These students will not only attend the awareness sessions but will also play an active role in assisting with the programs. This involvement will help them gain valuable insights into health topics, foster a sense of community responsibility, and equip them with the tools to promote healthier habits among their peers.</p> <p>The health awareness programs will cover a range of important topics such as nutrition, physical activity, mental health, disease prevention, and overall well-being. Participants will engage in workshops, group discussions, and interactive activities that are designed to be both educational and engaging. The program aims to empower students with the knowledge and skills they need to make informed decisions about their health and well-being.</p> <p>By involving students from different grade levels, the HCCCI hopes to create a ripple effect within the community. The program encourages the participants to become ambassadors of health education, spreading awareness among their friends, family members, and fellow students. It is expected that the collaboration between HCCCI and the selected participants will not only promote healthier lifestyles but also cultivate a strong sense of civic responsibility and teamwork.
