CALL TO ORDER:

The Public Hearing was called to order at 9:44 in the morning.

AGENDA:

Review and discuss provisions stated under the following proposed Municipal Ordinances:

- MUNICIPAL ORDINANCE NO. 12, SERIES OF 2026 "AN ORDINANCE PROHIBITING THE USE OF PLASTIC BAGS AS PACKAGING EVERY MONDAY AND WEDNESDAY IN MACARTHUR, LEYTE AND PROVIDING PENALTIES FOR VIOLATIONS THEREOF"
- MUNICIPAL ORDINANCE NO. 13, SERIES OF 2026 "AN ORDINANCE ESTABLISHING THE MACARTHUR MUNICIPAL WATERSHED PROTECTION AREA, DECLARING A FIVE (5)-KILOMETER RADIUS FROM THE MUNICIPAL WATER SOURCE IN SITIO OBO-OB, BRGY. SAN VICENTE, MACARTHUR, LEYTE, AS A WATERSHED PROTECTION AREA, CREATING THE MUNICIPAL WATERSHED MANAGEMENT COUNCIL AND THE BANTAY-KALIKASAN WATERSHED PROTECTION TEAM, PROVIDING FOR THEIR POWERS, FUNCTIONS AND RESPONSIBILITIES, PRESCRIBING PROHIBITED ACTS AND PENALTIES, PROVIDING FOR THE IMPLEMENTATION OF WATERSHED MANAGEMENT PROGRAMS, PROJECTS AND ACTIVITIES, AND FOR OTHER PURPOSES."

The Public Hearing started after the adjournment of the hearing of Committee on Infrastructure Development, Transformation, Communication. Honorable Beriso seated as the Presiding Officer.

The Secretary to the Sanggunian read the proposed Municipal Ordinance No. 12, Series of 2026 entitled, AN ORDINANCE PROHIBITING THE USE OF PLASTIC BAGS AS PACKAGING EVERY MONDAY AND WEDNESDAY IN MACARTHUR, LEYTE AND PROVIDING PENALTIES FOR VIOLATIONS THEREOF.

Afterwards, the Presiding Officer stated the need for reduction of the single-used plastic. She added that the Ordinance aims to lessen the use of the plastic gradually. She then reiterated that the main focus of the Ordinance are the plastics. This also aims for a gradual transition for the public and the business establishments in prohibiting the use of such materials. The Presiding Officer then opened the floor for suggestions and clarifications.

Ms. Abegail, a store owner, inquired with regards to the packaging of coconut milks and olis. The Municipal Environment and Natural Resources Office Designate—Engr. Norly Lanza responded that under *Section 7. Exemptions* of the Ordinance, it was mentioned that packaging for wet goods, meat, fish and food that pose sanitation risks are exempted. Since the coconut milk and oil are included in this category, they are exempted as well but, Engr. Lanza added that if there is a possible alternative, then it would be better.

Moreover, Ms. Piga, representative of Brenelou Enterprise, had an observation with regards to the laundry packaging. She added that they usually use plastic packaging because if paper bags were used, it won't hold the laundry. She then asked if it would be possible to include such packaging under exemptions.

The Presiding Officer responded that it can be included under *Section 7. Exemptions* under the third provision which states that, *such other items as may be determined by the Municipal Environment and Natural Resources Office*.

Engr. Lanza added that with his previous work at Quezon City, they have a strict implementation of the "No Plastic Day". When they have their laundry washed, they still have the plastic packaging, but they mostly use the eco-bags. He then gave an information that most of the municipality already have this Ordinance and that the municipality of MacArthur is gradually implementing the same. In addition, he added that since there are products that really requires the use of plastic packaging, they include the other items as may be determined by the Municipal Environment and Natural Resources Office.

Along this line, Engr. Lanza stated that at the end of the hearing, with all the suggestions gathered, they will create an implementing rules and regulations for further specifications. Ms. Piga then agreed to have an IRR for a clearer classification.

Another question was raised by Mr. Romel Rosal, a store owner of dry goods, as to when would be the implementation of the Ordinance. The Presiding Officer responded that the Ordinance will be implemented upon approval of the Sangguniang Panlalawigan, and would first go through series of readings. She added that they would be given copies once the Ordinance is approved.

In addition, Engr. Lanza stated that after the approval from the Sangguniang Panlalawigan, there would be a 60-day information campaign. The 60-day campaign would

also serve as the transition period. If they still have the plastic packaging, they are still allowed to use those during the days not prohibited. During the 60-day campaign they would be informing the consumers and establishment about the prohibition of using plastic packaging, giving out flyers, posting of tarpaulins for the awareness. They would not be imposing penalties yet during those said days. It would be only for the education and information of the public.

There being no clarifications and suggestions for the proposed Municipal Ordinance No. 12, the Secretary to the Sangguniang proceeded to read the proposed Municipal Ordinance No. 13, Series of 2026 entitled, AN ORDINANCE ESTABLISHING THE MACARTHUR MUNICIPAL WATERSHED PROTECTION AREA, DECLARING A FIVE (5)-KILOMETER RADIUS FROM THE MUNICIPAL WATER SOURCE IN SITIO OBO-OB, BRGY. SAN VICENTE, MACARTHUR, LEYTE, AS A WATERSHED PROTECTION AREA, CREATING THE MUNICIPAL WATERSHED MANAGEMENT COUNCIL AND THE BANTAY-KALIKASAN WATERSHED PROTECTION TEAM, PROVIDING FOR THEIR POWERS, FUNCTIONS AND RESPONSIBILITIES, PRESCRIBING PROHIBITED ACTS AND PENALTIES, PROVIDING FOR THE IMPLEMENTATION OF WATERSHED MANAGEMENT PROGRAMS, PROJECTS AND ACTIVITIES, AND FOR OTHER PURPOSES.

The Presiding Officer stated that the Ordinance was created through the help of an attorney, the Sangguniang Bayan members, the Secretary to the Sanggunian, and different agencies and offices. She added that the Ordinance mainly focuses on the five (5) barangays namely, Barangay Lanawan, San Vicente, Oguisan, San Antonio, and Sta. Isabel. The basis for the said Ordinance came from national laws, provincial ordinances, and approved municipal ordinances.

Furthermore, the Presiding Officer stated that the purpose of the Ordinance is to provide protection to the water sources consumed by the municipality. She then opened the floor for clarifications and suggestions.

Engr. Lanza stated that one of the purposes of the creation of the watershed in the municipality of MacArthur, as observed, not all barangays are covered by the MCWASS and there is still scarcity of water. He added that the design of the water system cannot supply and sustain the demand of the increasing number of households and institutional infrastructures.

In addition, Engr. Lanza stated that in order to have a sufficient supply of water, the water source which is located in Sitio Obo-ob of Barangay San Vicente. There is a proposal for expansion of additional water source. He added that the present water source is a spring which has a tendency to dry up especially on hot seasons. Another factor that also affects is the cutting and burning of trees. He also stated that there are already structures constructed along the water source in Sitio Obo-ob such as piggery which why he asked if they would like a water system that is contaminated. He then reiterated the importance of the Ordinance to protect the water source and to impose sanctions to violators.

A query was raised by Ms. Piga about the basis for the 5-kilometer radius of the water source and asked if it can somehow be expanded to a 10-kilometers for the safety and protection of the water source.

Honorable Lazar responded that the bottom line of the Ordinance is the people and the water. There is a need to protect the people that live on that area, as well as the water the municipality is consuming. He added that the 5-kilometer radius comes from the source of

the water, and that they are not against the people living on the area. The Ordinance is mainly for the protection of the water source and for the regulation of prohibited activities.

Honorable Lazar went back to the query of Ms. Piga. He stated that the 5-kilometer radius is for the water source. There is another for the protected area such as the Lake Bito for its biodiversity and environmental protection. He stated that if for instance the radius will be made to 10-kilometers, there would be a lot of complaints for there are a lot of prohibitions such as the construction of toilets and piggeries. He stated that the 5-kilometer will be for the water source, but another one can be made for another area.

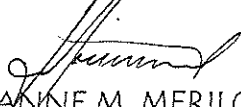

Furthermore, Honorable Lazar stated that, from the water source, there is a 20–40-meter buffer zone and there are prohibited activities on those areas.

In conclusion, the Presiding Officer stated the suggestions would be of huge help for the improvement of the Ordinances for the benefit of the community.

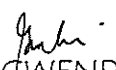

ADJOURNMENT:

There being no more business to be discussed, Hon. Burawis declared the meeting adjourned at 11:52 in the morning.

I HEREBY CERTIFY to the correctness of the foregoing minutes.
